Published on FIDEL Soldier of Ideas (<http://www.comandanteenjefe.net>)

"At one time or another, every one of the Latin American countries was victim of interventions and politic and economic aggressions. There is not one that could deny it. It is naïve to think that the good intentions of a president of the United States could justify the existence of that institution that opened the doors to the Trojan horse that supported the Summits of the Americas, neoliberalism, drug-trafficking, military bases and economic crises".
