

[27 de junio de 1945 - ingles](#)

- Fidel graduates from the Colegio de Belén as a Bachelor of Arts. In the school yearbook his professors write “Fidel Castro always excelled in all the subjects that were related to arts and letters...He was a true athlete, earning admiration and affection from all. He shall be entering Law and we have no doubts that he shall be writing brilliant entries in the volume of his life. Fidel is highly capable and has the soul of an artist.”
