

NATO'S GENOCIDAL ROLE (PART TWO)

A little over eight months ago, on February 21st of this year, I stated with complete conviction: "The NATO plan is to occupy Libya". With that title I dealt with the subject for the first time in a Reflection whose content seemed to be the product of a fantasy.

I include in these lines the elements for the opinion that led me to that conclusion.

"Oil has become the principal wealth in the hands of the great Yankee transnationals; through this energy source they had an instrument that considerably expanded their political power in the world."

"Upon this energy source today's civilization was developed. Venezuela was the nation in this hemisphere that paid the highest price. The United States became the lord and master of the huge oil fields that Mother Nature had bestowed upon that sister country."

"At the end of the last World War, it started to extract greater amounts of oil from the oil fields of Iran, as well as those in Saudi Arabia, Iraq and the Arab countries located around them. These became the main suppliers. World consumption progressively increased to the fabulous figure of approximately 80 million barrels a day, including those being extracted on United States territory, to which later gas, hydro and nuclear energies were added."

"The squandering of oil and gas is associated with one of the greatest tragedies, not in the least resolved, which is suffered by humankind: climate change."

"In December of 1951, Libya becomes the first African country to attain its independence after WW II, during which its territory was the stage for important battles between the troops of Germany and the United Kingdom..."

"Ninety-five percent of its territory is completely made up of desert. Technology permitted the discovery of vital oilfields of excellent quality light oil that today reach one million 800 thousand barrels a day along with abundant deposits of natural gas. [...] Its harsh desert is located over an enormous lake of fossil waters, equivalent to more than three times the land area of Cuba; this has made it possible to construct a broad network of pipelines of fresh water that stretch from one end of the country to the other."

"The Libyan Revolution took place in the month of September of the year 1969. Its main leader was Muammar al-Gaddafi, a soldier of Bedouin origin who, in his early years, was inspired by the ideas of the Egyptian leader Gamal Abdel Nasser. Without any doubt, many of his decisions are associated with the changes that were produced when, as in Egypt, a weak and corrupt monarchy was overthrown in Libya."

"One can agree with Gaddafi or not. The world has been invaded with all kinds of news, especially using the mass media. One has to wait the necessary length of time in order to learn precisely what is the truth and what are lies, or a mixture of events of every kind that, in the midst of chaos, were produced in Libya. For me, what is absolutely clear is that the government of the United States is not in the least worried about peace in Libya and it will not hesitate in giving NATO the order to invade that rich country, perhaps in a matter of hours or a few short days."

"Those who with perfidious intentions invented the lie that Gaddafi was headed for Venezuela, just as they did yesterday afternoon on Sunday the 20th of February, today received an fitting response from Foreign Affairs Minister Nicolás Maduro..."

NATO'S GENOCIDAL ROLE (PART TWO)

"As for me, I cannot imagine that the Libyan leader would abandon his country; escaping the responsibilities he is charged with, whether or not they are partially or totally false."

"An honest person shall always be against any injustice being committed against any people in the world, and the worst of all, at this moment, would be to remain silent in the face of the crime that NATO is getting ready to commit against the Libyan people."

"The leadership of that war-mongering organization has to do it. We must condemn it!"

At that early date I had realized something that was absolutely obvious.

Tomorrow, on Tuesday October 25th, our chancellor Bruno Rodríguez will speak at UN Headquarters to denounce the criminal blockade of the United States against Cuba. We shall be closely following that battle which will once again make clear the necessity of putting an end to, not just the blockade, but the system that spawns injustice on our planet, squanders its natural resources and puts human survival at risk. We shall be paying particular attention to Cuba's declaration.

I shall continue on Wednesday the 26th.
